This review verifies the reproducibility of the exhibits included in the paper *"Long-term and lasting impacts of personal initiative training on entrepreneurial success"*.

Contents in this review:

1. Main findings

2. List of exhibits and reproducibility status

3. Reproduction Environment

Main findings

- The code was successfully executed on a new computer after:

  1. Changing the file path in the main dofile

  2. Installing packages ietoolkit, cibar, grc1leg, estout, qreg2, distinct, mat2txt, pdslasso, ivreg2, and rankest.

- The output demonstrates consistent stability across multiple runs. Specifically, executing the code two times consecutively yielded identical results.

- The code takes approximately 5 minutes to run.

- We conducted our reproducibility analysis based on the paper shared by the authors in the reproducibility package.

- Every exhibit has been reproduced accurately.

- **Reproducibility Summary**:

  - **Data**: All data sources are publicly available but not included in the reproducibility package.
  - **Code**: All code files (from cleaning to analysis) are included in the reproducibility package.
  - **Outputs**: All outputs are generated by code included in the reproducibility package.
  - **Reproducibility verification**: Reviewers used data provided directly by the authors to conduct the reproducibility verification, and this is not included in the public reproducibility package. The reviewers verified that publicly available data matches the data provided by the authors.
  - **Dependencies environment**: The reviewers created a new environment for dependencies using the latest versions available for each dependency at the moment of the review.
