

Persistent yet Ameliorable Shocks to Female Entrepreneurship: Experimental Evidence from Kenya

Francisco Campos, Maria Hernandez-de-Benito, Julian Jamison, Abla Safir, Bilal Zia

Overview

The code in this replication package constructs the Tables and Figure for this Working Paper using Stata. One main do file is used to construct all relevant variables, tables and figures. The entire code should run in less than 5 minutes.

Data Availability and Provenance Statements

Statement about Rights

I certify that the author(s) of the manuscript have legitimate access to and permission to use the data used in this manuscript.

I certify that the author(s) of the manuscript have documented permission to redistribute/publish the data contained within this replication package. Appropriate permission are documented in the [LICENSE.txt](#) file.

Summary of Availability

All data **are** publicly available.

Some data **cannot be made** publicly available.

No data can be made publicly available.

Details on each Data Source

All analyses were conducted using the following data source:

- kyeop_gender_clean - cleaned raw data
- GenderCovid_reg_dataset.dta - regression dataset used in Tables 1-11, C1-C12, D1-D9.

Software Requirements

- Stata (code was last run with version 16)
 - estout
 - erepost
 - winsor2
 - gtools
 - ftools

- reghdfe
- the program "Setup" will install all dependencies locally

DO File List

Analysis was conducted in Stata, version 16, and uses additional packages which are available through ssc, and also provided in the replication files.

- GenderCovidReplicationTablesFigures.do, this file creates the regression dataset and reproduces all Figures and Tables.
- Ado files have been stored in ado and all the do files set the ADO directories appropriately.

List of tables and programs

As noted, the file GenderCovidReplicationTablesFigures.do produces all Tables and Figures in the paper

Figure/Table #	Program	Line Number	Output file	Note
Figure 1	GenderCovidReplicationTablesFigures.do	25	F_Figure1.png	
Table 1	GenderCovidReplicationTablesFigures.do	67	T_Table1.xls
