This review verifies the reproducibility of the exhibits included in the paper “*Motivating Improved Healthcare Using Holistic Patient Contracts*”.

### **Contents in this review:**

1. Main findings
2. List of exhibits and reproducibility status
3. Reproduction Environment

### *Main findings*

- The code was successfully executed on a new computer without adding any changes to the code. The reviewers executed the code script by script following the order in the script prefixes.
- The output demonstrates consistent stability across multiple runs. Specifically, executing the code two times consecutively yielded identical results.
- The code takes approximately 12 hours to run.
- We conducted our reproducibility analysis based on the paper shared by the authors via email on August 30, 2024.
- Every exhibit has been reproduced accurately.
- **Reproducibility Summary:**
  - **Data:** All data is restricted and has not been included in the reproducibility package. For more details, please refer to the README file.
  - **Code:** All code files (from cleaning to analysis) are included in the reproducibility package.
  - **Outputs:** All outputs are generated by code included in the reproducibility package.
  - **Reproducibility verification:** Reviewers used data provided directly by the authors to conduct the reproducibility verification, and this is not included in the public reproducibility package.
  - **Dependencies environment:** The reviewers created a new environment for dependencies using the latest versions available for each dependency at the moment of the review.
