

Experimental Evaluation of a Financial Education Program in Elementary and Middle School Grades

Publication

This repo includes the code used for the impact evaluation of a financial education program targeting primary and lower secondary students. The results of the evaluation is published in Experimental Evaluation of a Financial Education Program in Elementary and Middle School Grades

Data availability statement

This paper uses both public and confidential data. All public data is included in this reproducibility package. The package does not include the administrative data on student performance shared by Instituto Nacional de Estudos e Pesquisas Educacionais (INEP) of the Ministry of Education of Brazil. This data was accessed in a cold room in INEP facilities.

List of exhibits included in reproducibility package

Section	Exhibit	Inclusion in reproducibility package
Main section	Figure 1	Included
Main section	Table 1	Included
Main section	Table 2	Included
Main section	Table 3	Included
Main section	Table 4	Not included, results were generated in a cold room
Appendix B	Table B1	Included
Appendix B	Table B2	Exhibit does not show analysis results and was generated manually
Appendix B	Table B3	Included
Appendix B	Table B4	Exhibit does not show analysis results and was generated manually
Appendix B	Table B5	Included
Appendix B	Table B6	Included
Appendix B	Table B7	Included
Appendix B	Table B8	Not included, results were generated in a cold room

Section	Exhibit	Inclusion in reproducibility package
Appendix B	Table B9	Not included, results were generated in a cold room
Appendix B	Table B10	Included
Appendix B	Table B11	Included
Appendix B	Table B12	Included
Appendix B	Table B13	Included
Appendix B	Table B14	Not included, results were generated in a cold room
Appendix C	Figure C1	Included
Appendix C	Figure C2	Included
Appendix C	Figure C3	Included
Appendix C	Figure C4	Included
Appendix C	Figure C5	Included
